

*Charitable # 759200330 RR0001*

# OUR MISSION

A **charitable organization** founded in 2018 that strives to connect high school and undergraduate students in Canada to opportunities in the field of **life, health, and biological sciences**.

1. Increase the **transparency** of the entry process into healthcare career pathways
2. Create an **accessible platform** to share learning experiences in the biological sciences
3. Promote **equitable access** to education for all students, no matter their socioeconomic status, gender, religion or race

## OUR PARTNERS

## WITH SUPPORT FROM

morgan crossing notaries

## OUR IMPACT

**26+** PROJECTS

run since 2018

**450+** VOLUNTEERS

engaged in 7 provinces

**3000+** IMPACTED

directly through programming

reached across Canada

# OUR INITIATIVES

UNIVERSITY  
ADMISSIONS SERVER

**ONGOING** – An online community where high school students network and learn about university science programs, including admissions, curricula, student life, and extracurricular opportunities, by directly chatting with undergraduate mentors.

875+  
STUDENTS      78  
MENTORS

**ANNUALLY** – Our annual youth fair, showcasing opportunities in Sciences, Technology, Engineering and Math. Through interactive booths and Q&A, students explore research, volunteering, social advocacy and leadership. It is hosted by PuMP's Toronto, Calgary, Ottawa, and Vancouver branches.

1600+  
STUDENTS      20  
SPONSORS  
59  
BOOTHS

IN PARTNERSHIP WITH  
STEM Fellowship

**ANNUALLY** – A free program pairing high school students interested in pursuing the biological sciences with an undergraduate mentor. Through one-to-one calls, mentees learn about scholarships, applying to post-secondary programs, preparing for campus life, and more.

139

300  
SCHOOLS

# FUTURE GOALS

Be it through starting new projects or expanding current initiatives, our team's first priority is always the continuous improvement of our services.

## GROW

- Establish new regional branches across Canada
- Tangibly impact local communities
- Run regular annual events, such as PuMP+

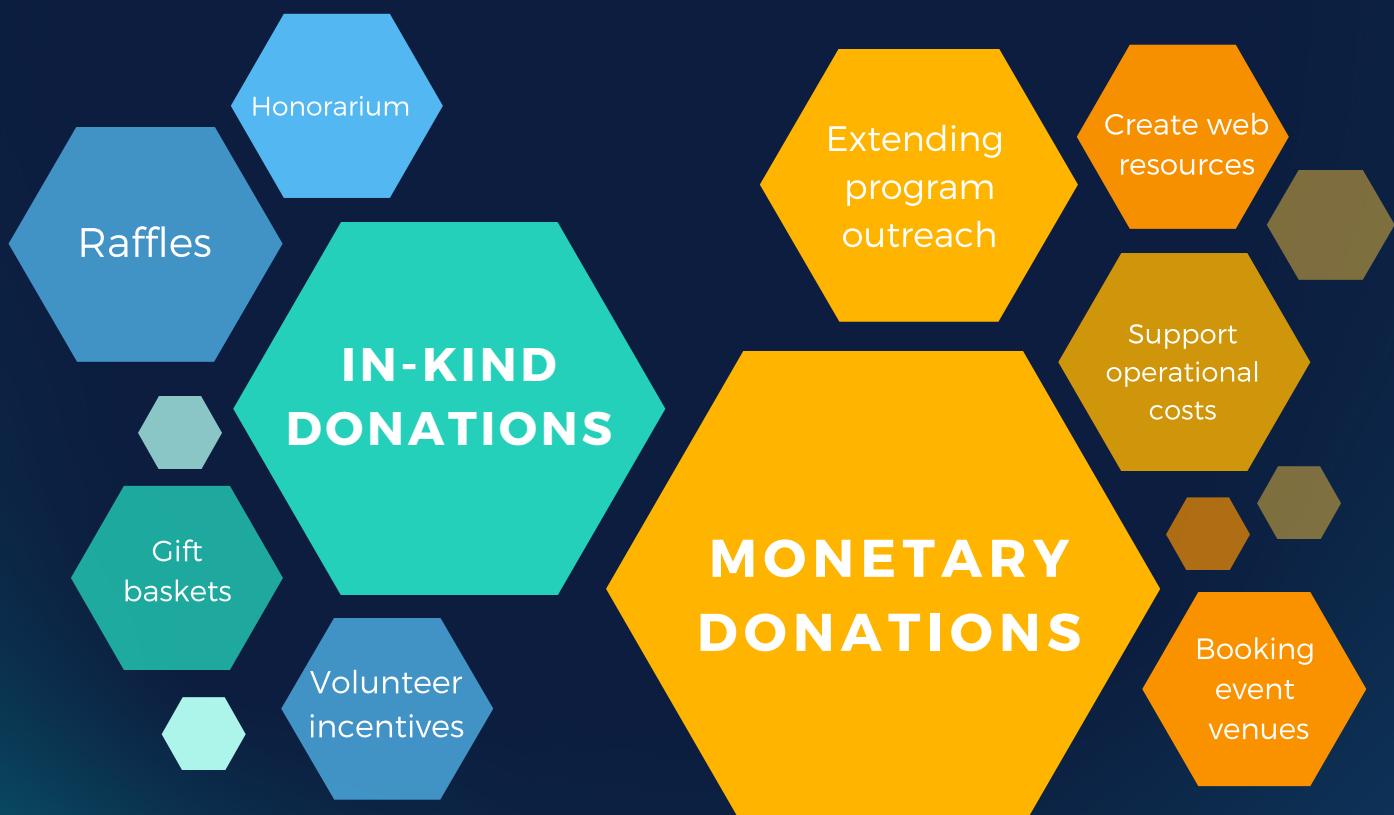

## REBUILD

- Extend the depth of our programming and website resources
- Targeted school outreach
- Improve services based on student feedback

## DIVERSIFY

- Create programs tailored towards underrepresented communities in STEM
- Develop unique event and resource
